

# Our Community:

We would like to give the many talented people that live in our area an outlet for their gifts of talent in music, dance, visual arts, writing, theater, and the many other ways that people communicate through art. Most of us already realize that we live in a wonderful area. Wouldn't it be more enriching if we could offer each other more through the arts?

This is a very exciting adventure that we are embarking on and we hope that you will join us and help to make it work.

We need you to help us live up to our mission statement.

We are Fostering the arts for the community. That community being everyone that wants to be part of this adventure.

Join our community today, and find out how much more art can be when you share it with others.

# Our Mission:

Our mission is to nurture and strengthen the communities of northwestern Rhode Island and eastern Connecticut by offering opportunities for sharing creative experiences and celebrating our cultural resources. The organization supports educational and social programs involving the arts including visual art, music, dance, theater, folk art, and healing arts.
